The booklet you have before you is a communication written to fully explain the subject of Agenda 21, also called Sustainable Development, Smart growth, Green Cities, and numerous other titles. The pages here compile a History of the processes that have been working behind the scenes, for many years, to allow this to occur in our state and country today. Please take the time to digest this information that will surprise, anger, and with time assist you in gaining understanding of the way forward. To not be swallowed up by forces aligned against us, we must succeed. We must move forward into the future with technological, thoughtful stewardship, age old and valid. Not flawed sciences designed to strike fear and regressive environmentalism, famine and what accompanies. The logical conclusion of Agenda 21, is famine, violence, eugenics and a world of repression unequaled in history.

Other Venona related documents An April 14, 1941 Memorandum from the U.S. Military Attaché (G-2) in Moscow, found in the Harry Hopkins Papers at the FDR Library, entitled NKVD of the USSR, [12] it states in part:

“Although the Soviets disclaim forced labor in this country, the organization of this commissariat is interesting to note. In it are the means to apprehend (militia), try and sentence (advisory council) and imprison offenders (corrective labor). Any governmental organization that has a crying need for labor simply calls upon the NKVD to supply it. If the amount of labor is insufficient to supply the need, it is relatively an easy matter to institute a reign of terror on any pretext and fill up labor colonies to meet requirements....Its close supervision over the people, its pogroms, its raids and arrests, has instilled fear...The NKVD has every individual under observation from birth to death...its secret agents are everywhere; its actions are swift. An individual simply disappears in the middle of the night and no one ever sees or hears of him again. ...When Stalin needs scapegoats to cover government mistakes he unleashes his NKVD...The Soviet Union is in itself a prison and the NKVD and State Security are its keepers. Introduction

Exposing “Agenda 21”

We should all want to be wise and careful stewards of the beautiful planet we call home. But most of us realize that humans in general, are not always the best stewards. We can be wasteful of our natural resources and have on occasion reduced biodiversity. Therefore, when we read about groups and organizations calling for a “Green Revolution”, and a new relationship between humanity and nature it is easy to engage some agreement with their ideas. However, the motive of “Sustainable Development” that is permeating our society is not about protecting the environment. Influential leaders and willing dupes are using good citizens concerns about future stewarding of resources to legislate “Government Control” of all lands, water, and human production. Please carefully consider the implications outlined in this material, the instigators so freely express in the following pages.

Club of Rome as Wedge Against Citizens & Club of Budapest the Evil Twin

The CoB is an organization formed by the Club of Rome (CoR) to promote the cultural and spiritual aspects of its agenda. Likewise the CoR formed the Club of Madrid to promote its political agenda.

The Club of Budapest convenes itself under the rather ostentatious title ‘The World Wisdom Council.’ Members include the Dalai Lama, Desmond Tutu, Mikhail Gorbachev, Arthur C. Clarke, Mary Robinson, Jane Goodall, Karan Singh etc. The CoB has established the World Shift Network which has the stated aim of helping to transform the planet earth: Areas of Transformation:

Economy — Health — Society — Environment — and last but not least — Culture. No stone left unturned, that is for sure.

“A reasonable estimate for an industrialized world society at the present North American material standard of living would be 1 billion. At the more frugal European standard of living, 2 to 3 billion would be possible.” - United Nations, Global Biodiversity Assessment
Emerging Awareness of “Sustainable Development”

“Agenda 21” or “Sustainable Development” is creating alarm across the nation as citizens in community after community are learning what their city planners are actually up to. As awareness grows, many complain that elected officials just won’t read detailed reports or watch long videos. “Can you give us something that is quick, and easy to read that we can hand out,” I’m asked. So here is a quick description of “Agenda 21”, driven down through” ICLEI” that fits on a few pages. This slide show provides accurate information exposing “Sustainable Development” and what the elite who created the issue actually intend for you and your children. This “process,” is being implemented over several years in small steps, while you are living your life unaware of the coming agenda. A word of caution, this is a starter slide show, do not allow it to be your only knowledge of this subject. To kill Agenda 21 you have to know the facts. Research, know your details; discover the key players in your community; everyone will be victimized by the policies. Recruit them to your fight; and then kill Agenda 21. That’s how it must be done. The information below is only your first step. Success is being hailed around the country. Happy hunting. Follow the information in the next few pages to become a protector of the United States. Emerging Awareness of "Sustainable Development"

1. 1840 - The socialist path. Saint-Simon a true Socialist, is the founder of Sociology as a tool for guilt association as well as socializing of society for political purposes.

2. 1892 - Departments in Univ. of Chicago, Columbia Univ., Univ. of Wisconsin with E.A. Ross who has career full of Socio-communist relations. Ross's book “Social Control” (1901) is the textbook teaching how a few can gain control over Society. Albin W. Small, first Chair, taught Sociology as History, Economics, and Political Science.

3. 1908 - Philanthropic Foundations entered, along with the Federal Reserve, creating false economics and third party funding of subversive activities, via social cover. Alger Hiss was President of Carnegie Foundation. Rockefeller Foundation funded Sociology Chair Albin W. Small at Univ. of Chicago. The idea is: There is crime in the Slums, therefore slums cause crime-eliminate Slums, eliminate crime. Guilt Association.

4. 1913 - Roscoe Pound, Saint-Simon. Socialized Law substitutes appointed Administrators for judicial Law. This to adjust social interests over the individual rights. Supreme Court Justice Frankfurter spoke about “throughgoing overturning” of society. It must be done from the outside and translated by those in office.

5. 1913 - Or, as the old Red dictum goes, “Communism must be built with non-Communist hands.” To engage the non-Communist dupes in these endeavors, though, requires rhetorical camouflage and deception. A prime example of this rhetorical treachery can be found in the judicial revolution launched in 1913 with the Conference on Legal and Social Philosophy organized by Fabian Socialists Harold Laski, John Dewey, Morris Cohen, and Roscoe Pound. Cohen’s son, Felix, later boasted that it is from this conference that “much of the social and philosophical consciousness of modern American jurisprudence derives.” Felix Cohen openly proclaimed; it is impossible to attempt overthrow of Capitalism as an economic system without at the same time attacking the substance of capitalist law.

6. 1916 - Socialist Leader John Dewey’s Textbook still used today. He said dependency is a power, individuality an illness. There-upon the sane are insane, the dependent is sane, as he needs the community. The collective is the norm. In 1934 (L.I.D.) League for Industrial Democracy had student groups in 150 colleges.
Woodrow Wilson (1856-1924), President of the United States in 1913-1921, was a reforming, progressive president of Princeton Univ. from 1902-1910.

Woodrow Wilson, *As president of Princeton, declared that “Our aim is to turn out young men as unlike their fathers as possible.”* Wilson repeated this view at an Address at the Young Men’s Christian Association Celebration in Pittsburgh on October 24, 1914. In his YMCA address, Wilson remarked that “*Young men are embarrassed by having inherited their fathers’ opinions.*”

*Every man who is old enough to have a son in college is old enough to have become very seriously immersed in some particular business and is almost certain to have caught the point of view of that particular business. And it is very useful to his son to be taken out of that narrow circle, conducted to some high place where he may see the general map of the world and of the interests of mankind, and there shown how big the world is and how much of it his father may happen to have forgotten.*

Gro Harlem Brundtland (Norwegian pronunciation: [gruː haːlem bɾʊntlanː]; listen) (born Gro Harlem, 20 April 1939) is a Norwegian Social democratic politician, diplomat, physician, plus an international leader in sustainable development and public health. She served three terms as Prime Minister of Norway (1981, 1986–89, 1990–96), and has served as the Director General of the World Health Organization. She now serves as a Special Envoy on Climate Change for the United Nations Secretary-General Ban Kimoon. In 2008 she became the recipient of the Thomas Jefferson Foundation Medal in Architecture. Brundtland is also a member of the Club de Madrid, an independent organization of former leaders of democratic states, which work to strengthen democratic governance and leadership. She authored “our common future” report as a “political concept” through (WCED).

Oregon’s Connection

Salem, Oregon Mayor Mike Swaim is an example of a public official forcing “Agenda 21”. He created “Salem’s Future” right under citizen’s noses, undetected until too late.

In 1983, Brundtland was invited by then United Nations Secretary-General Javier Pérez de Cuéllar to establish and chair the World Commission on Environment and Development (WCED), widely referred to as the Brundtland Commission. She developed the broad “political concept” of sustainable development in the course of extensive public hearings that were distinguished by their (implied) inclusiveness and published its report “Our Common Future” in April 1987. The Brundtland Commission provided the momentum for the 1992 Earth Summit/UNCED, that was headed by Maurice Strong, who had been a prominent member of the Brundtland Commission. The Brundtland Commission also provided momentum for Agenda 21.

Maurice F. Strong, PC, CC, OM, FRSC (born April 29, 1929 in Oak Lake, Manitoba) is a Canadian entrepreneur and a former under-secretary general of the United Nations. Strong’s first name is pronounced “Mor’ris” with the accent on the first syllable.

Strong had his start as an entrepreneur in the Alberta oil patch and was president of Power Corporation of Canada until 1966. In the early 1970s he was Secretary General of the United Nations Conference on the Human Environment and then became the first Executive Director of the United Nations Environment Programme. He returned to Canada to become Chief Executive Officer of Petro-Canada from 1976 to 1978. He headed Ontario Hydro, one of North America’s largest power utilities, was national President and Chairman of the Extension Committee of the World Alliance of YMCAs, and headed American Water Development Incorporated. He served as a commissioner of the World Commission on Environment and Development in 1986 and is recognized by the International Union for Conservation of Nature as a leader in the international environmental movement.

He was President of the Council of the University for Peace from 1998 to 2006. Today Strong is an active honorary professor at Peking University and Honorary Chairman of its Environmental Foundation. He is Chairman of the Advisory Board for the Institute for Research on Security and Sustainability for Northeast Asia.

An Aside

In 2005, during investigations into the U.N.’s Oil-for-Food Programme, evidence procured by federal investigators and the U.N.-authorized inquiry of Paul Volcker showed that in 1997, while working for Annan, Strong had endorsed a check for $988,885, made out to “Mr. M. Strong,” issued by a Jordanian bank. It was reported that the check was hand-delivered to Mr. Strong by a South Korean businessman, Tongsun Park, who in 2006 was convicted in New York federal court of conspiring to bribe U.N. officials to rig Oil-for-Food in favor of Saddam Hussein. Mr. Strong was never accused of any wrongdoing. During the inquiry, Strong stepped down from his U.N. post, stating that he would “sideline himself until the cloud was removed”. Shortly after this, Strong moved to an apartment he owned in Beijing. He said that his departure from the U.N. was motivated not by the Oil-for-Food investigations. Strong was Mr. Annan’s special adviser on North Korea.”

Maurice Strong Continued

His role in leading the UN’s famine relief program in Africa was the first in a series of UN advisory assignments, including reform and his appointment as Secretary-General of the UN Conference on Environment and Development — best known as the Earth Summit held in Rio de Janeiro from 3 June to 14 June 1992. According to Strong, participants at the Rio Conference adapted sound principles but did not make a commitment to action sufficient to prevent global environmental tragedy, committing to spend less than 5% of the $125 billion he felt appropriate for environmental projects in developing nations. He was seconded in that opinion by U.N. Secretary General Boutros Boutros-Ghali who stated to the delegates, “The current level of commitment is not comparable to the size and gravity of the problems.” (Wealth Distribution) After the Earth Summit, Strong continued to take a leading role in implementing the results of agreements at the Earth Summit through establishment of the Earth Council, the Earth Charter movement, his Chairmanship of the World Resources Institute, Membership on the Board of the International Institute for Sustainable Development, the Stockholm Environment Institute, The Africa-America Institute, the Institute of Ecology in Indonesia, the Beijer Institute of the Royal Swedish Academy of Sciences, and others. Strong was a longtime Foundation Director of the World Economic Forum, a Senior Advisor to the President of the World Bank, a Member of the International Advisory of Toyota Motor Corporation, the Advisory Council for the Center for International Development of Harvard University, the World Business Council for Sustainable Development, the World Conservation Union (IUCN), the World Wildlife Fund, Resources for the Future, and the Eisenhower Fellowships. His public service activities were carried out on a pro bono basis made possible by his business activities, which included Chairman of the International Advisory Group of CH2M Hill, Strovest Holdings Inc., Technology Development Inc., Zenon Environmental Inc., and most recently, Cosmos International, and the China Carbon Corporation.
“Sustainable Development” is in most simple terms: “A process” created with engineered crisis, being elevated through repeated declarations of pseudo-facts, (often inaccurate) with a “pre-ordained solution” designed from the beginning.

The term “Sustainable Development” was first introduced to the world in the pages of a 1987 report (Our Common Future) produced by the United Nations World Commission on Environmental and Development, authored by G. Harlem Brundtland, VP of the World Socialist Party. The term was first offered as official UN policy in 1992, in a document called UN Sustainable Development “Agenda 21”, issued at the UN’s Earth Summit, today referred to simply as “Agenda 21”.

“Agenda 21 proposes an array of draconian actions which are intended to be implemented by EVERY person on EARTH... it calls for specific changes in the activities of ALL people... Effective execution of Agenda 21 will REQUIRE a profound reorientation of ALL humans, unlike anything the world has ever experienced...”

“Individual rights will have to take a back seat to the collective.” words directly from Saint-Simon, Dewey, and those who desire repression in a quote by MR. Ruvin American Director of ICLEI.
When a city, or county signs onto an ICLEI Application for membership, or uses the material from the ICLEI program, they have agreed to the **World Religion provisions** listed below. These words: Upon receipt of membership fees and an adopted program resolution, your jurisdiction will be considered a full ICLEI member. All ICLEI Council members are governed by the ICLEI Charter. The charter and bylaws are from And still connected to Agenda 21.

**Professor Stephen Rockefeller is chairman of the Rockefeller Brothers Fund and the Earth Charter International Drafting Committee along with Mikhail Gorbachev.** Through them there has been created an Ark of Hope, (Designed to replicate the Ark of the Covenant) the Temenos Books, and masks and visual prayer objects. These were all presented at the Earth Summit II, The Charter, The Ark, and the Temenos Books. They were paraded in schools along with Earth Charter materials. Temenos; Mystic Circle

**Gorbachev:** My hope is that this charter will be a kind of “Ten Commandments” “Sermon on the Mount” that provides a guide for human behavior toward the environment in the next century and beyond.

**Canadian billionaire socialist Maurice Strong,** who presided over the 1992 Earth Summit in Rio de Janeiro, is somewhat less tentative. “The real goal of the Earth Charter,” said Strong, “is that it will in fact become like the Ten Commandments.”

Max Forrester Eastman (Jan 4, 1883 – March 25, 1969) Max was an American writer on literature, philosophy and society, a poet, and a prominent political activist. For many years, Eastman was a supporter of socialism, a leading patron of the Harlem Renaissance and an activist for a number of liberal and radical causes. In later life, however, his views turned sharply, and he became an advocate of free market economics and an anti-Communist.

In the forward of the Book; “The whole of their lives,” authored by: “Benjamin Gitlow” former communist, who later openly left the Communist Party, and became a proponent of Constitutional Government, Max Eastman notes this: Our civilization is in peril. Those consecrating themselves to Communism must not only cast out truth, mercy, crime, and self abasement. They must endorse such maxims as these: “We do not believe in external principles of morality — Communist morality is identical with the fight to strengthen the “dictatorship” of the proletariat.” We must be ready to employ trickery, deceit, lawbreaking, withholding and concealing truth. “We can and must write — in a language which sows among the masses hate, revulsion, scorn and the like toward those of differing opinion.” 1948

Pre-engineered solutions to the non-crisis by the designers waiting for the right moment

“We need a new collaborative decision process that leads to better decisions, more rapid change, and more sensible use of human, natural and financial resources in achieving our goals.” -Report from the President Clinton’s 1994 Council on Sustainable Development. (Randal Franke, Marion Co. was member of this Council)

Authors note: the shift from Individual rights and responsibilities starts here. Also, a review of the countries signing on to the agreement use the U.N. as a lever toward the United States. Of the nations involved, many are 3rd & 4th world. A study of the origins of the U.N. Charter, and the writers of the document will note decided communist language philosophy.

More than 178 nations adopted Agenda 21 as official policy during a signing ceremony at the Earth Summit. US president George H.W. Bush signed the document for the US. In signing, each nation pledges to adopt the goals of Agenda 21. Initially it was soft or passive law. unsigned by the Senate of the United States. In 1995, President Bill Clinton, in compliance with Agenda 21, signed Executive Order #12858 to create the President’s Council on Sustainable Development. This little known action in order to “harmonize” US environmental policy with UN directives as outlined in Agenda 21. The EO directed all agencies of the Federal Government to work with state and local community governments in a joint effort to “reinvent” government using the guidelines outlined in Agenda 21. Who is behind it? (ICLEI was driver of this policy in United States)

ICLEI – Local Governments for Sustainability (formally, International Council for Local Environmental Initiatives). Communities pay ICLEI dues to provide “local” community plans, software, training, etc. Additionally, groups include American Planning Council, The Renaissance Planning Group, International City/County Management Group, aided by US Mayors Conference, National Governors Association, National League of Cities, National Association of County Administrators and many more private organizations and official government agencies. Foundation and government grants drive the process.

Authors note: This single step, unseen or heard by citizens, radically changed the Federal Agencies available actions toward oppression of citizens of the United States. As well President Obama has written some 113 Executive orders, many directly threaten citizen safety and Constitutional rights.
Crisis Claims Stated in Public by the Designers of Agenda 21

“We need to get some broad based support, to capture the public’s imagination... So we have to offer up scary scenarios, make simplified, dramatic statements and make little mention of any doubts... Each of us has to decide what the right balance is between “being effective and being honest.””

- Prof. Stephen Schneider, Stanford Professor of Climatology, lead author of many IPCC reports.

“Humanity is sitting on a time bomb. If the vast majority of the world’s scientists are right, we have just ten years to avert a major catastrophe that could send our entire planet’s climate system into a tail-spin of epic destruction involving extreme weather, floods, etc.

- Sustainable Development = Agenda 21

“We need a new paradigm of development in which the environment will be a priority. World civilization as we know it will soon end. We have very little time and we must act. If we can address the environmental problem, it will have to be done within a new system, a new paradigm. We have to change our mindset, the way humankind views the world.”

- Mikhail Gorbachev, founder of Green Cross International

“We must make this an insecure and inhospitable place for capitalists and their projects. We must reclaim the roads and plowed land, halt dam construction, tear down existing dams, free shackled rivers and return to wilderness millions of acres of presently settled land.”

- David Foreman, co-founder of Earth First!

“My three main goals would be to reduce human population to about 100 million world-wide, destroy the industrial infrastructure and see wilderness, with it’s full complement of species, returning throughout the world.”

-Dave Foreman, co-founder of Earth First!
Oregon Leaders Destroy the Glory of A State

Use of Philanthropic Organizations to achieve global political and economic structure started in 1908

In 1973, the Rockefeller foundation, in concert with Oregon State University and a few politically anti-property rights supporters, in short, created SB100 evolving into LCDC and a well orchestrated, behind the scenes crippling of the production capability of the State. This activity was what Tom McCall had been advocating for some time. He was assisted by Mark Hatfield and a few other well placed political members. McCall testified before a Congressional Committee In Washington that Oregon now had the most restrictive land use policies in the nation.

Research project was titled: “Man and his activities as they relate to environmental quality”.

The $500,000.00 cost was paid by the Rockefeller Foundation — bypassing public interaction while providing third party cover.

Rockefeller, a Bilderberg (Group of Elite World Members advocating “One World Order) member, wrote: “Some even believe we are part of a secret cabal working against the best interests of the United States, characterizing my family and me as ‘internationalists’ and of conspiring with others around the world to build a more integrated global political and economic structure – one world, if you will. If that’s the charge, I stand guilty, and I am proud of it.”

What does this sordid revelation teach us about the Rockefeller Group, the Carnegie group with Alger Hiss, and the Institute of Pacific Relations? That advisors of Roosevelt and the assorted liberals, communists, communist sympathizers and agents of the Kremling — The Acheson’s, Lattimore’s, Jessep’s, and leftist inculcated groups believe European Expansion (while Decaying) is wicked and must be opposed, while Soviet expansion and imperialism is commendable. Not only is Soviet Imperialism commendable, it must be advanced by every means, including war, no matter the cost to the United States. The benevolent United States is to in fact fund it’s own demise.

Environmental Protection — Public Statement

The Preamble of the United Nations Earth Charter states:

... we are one human family and one Earth community with a common destiny. We must join together to bring forth a sustainable global society founded on respect for nature.... Towards this end, it is imperative that we, the peoples of Earth, declare our responsibility to one another, to the greater community of life, and to future generations.

The Rockefeller-Gorbachev Earth Charter effort is already fast at work on that score. Their website declares: The Earth Charter values and principles must be taught, contemplated, applied and internalized.

To this end, the Earth Charter needs to be incorporated into both formal and non-formal education. This process must involve various communities, (Sciences), continue to integrate the Charter into the curriculum of schools and universities, and constitute an ongoing process of life-long learning.

Oregon Connection

Oregon Citizens had no voice as The Governor Installed “Agenda 21” or “Sustainable Development” through Executive Order. In order to incorporate Agenda 21 into both formal and non-formal education per Agenda 21 Earth Charter Oregon Governor Kitzhaber instituted UNESCO (United Nations Education, Scientific and Cultural Organization) education K-12 in Oregon. The program is entitled “Education for Sustainability”. The United States withdrew from UNESCO in 1985 when Former Communist Intelligence agent Ladislav Bittman noted that UNESCO had become an aggressive political institution, educating third world countries to take stands against western standpoints and proposals. Year 2003 saw re-established U.S. engagement. There were no reforms that removed the communist bias, wordsmithing was extensive.

You must see if UNESCO education is being mandated in your schools, in your state.

Environmental Protection — Private Statements

“Christianity is our foe. If animal rights is to succeed, we must destroy the Judea- Christian Religious tradition.” - Peter Singer, founder of Animal Rights

“Nature is my god. To me, nature is sacred; trees are my temples and forests are my cathedrals.” - Mikhail Gorbachev, Green Cross International

Deceit

“No matter if the science of global warming is all phony... climate change provides the greatest opportunity to bring about justice and equality in the world.” - Christine Stewart, former Canadian Minister of the Environment

“The data doesn’t matter. We’re not basing our recommendations on the data. We’re basing them on the climate models” Prof. - Chris Folland, Hadley Centre for Climate Prediction and Research

“Global Sustainability requires the deliberate quest of poverty, reduced resource consumption and set levels of mortality control.” (Read Eugenics) - Professor Maurice King

“The resultant ideal sustainable population is hence more than 500 million but less than one billion.” - Club of Rome, Goals for Mankind

“Current lifestyles and consumption patterns of the affluent middle class - involving high meat intake, use of fossil fuels, appliances, air-conditioning, and suburban housing - are not sustainable.” - Maurice Strong, Rio Earth Summit

“The common enemy of humanity is man. In searching for a new enemy to unite us, we came up with the idea that pollution, the threat of global warming, water shortages, famine and the like would fit the bill. All these dangers are caused by human intervention, and it is only through changed attitudes and behavior that they can be overcome. The real enemy then, is humanity itself.” - Club of Rome, premier environmental think-tank, consultants to the United Nations.

“The earth is not dead matter. She is alive. Now begin to speak to the earth as you walk. You can speak out loud, or just talk to her in your mind. Send your love into her with your exhalation. Feel your heart touching upon the heart of the planet. Say to her whatever words come to you: Mother Earth, I love you. Mother Earth, I bless you. May you be healed. May all your creatures be happy. Peace to you, Mother Earth. On behalf of the human race, I ask forgiveness for having injured you. Forgive us, Mother Earth” - US Student Textbook, “Prayer to the Earth”
Social Equity (Social Justice)

“Social justice” is described as the right and opportunity of all people “to benefit equally from the resources afforded us by society and the environment.” Redistribution of wealth. Private property is a social injustice since not everyone can build wealth from it. National sovereignty is a social injustice. Universal health care is a social justice. All part of Agenda 21 policy.

Economic Prosperity

Public Private Partnerships (PPP). Special dealings between government and certain, chosen corporations which get tax breaks, grants and the government’s power of Eminent Domain to implement sustainable policy. Government-sanctioned monopolies.

Private Property Ownership

“Land...cannot be treated as an ordinary asset, controlled by individuals and subject to the pressures and inefficiencies of the market. Private land ownership is also a principle instrument of accumulation and concentration of wealth, therefore contributes to social justice.” -From the report of the 1976 UN’s Habitat I Conference.

“Private land use decisions are often driven by strong economic incentives that result in several ecological and aesthetic consequences...The key to overcoming it is through public policy...” -Report/ The President’s Council on Sustainable Development, page 112

“Current lifestyles and consumption patterns of the affluent middle class – involving high meat intake, use of fossil fuels, appliances, home and work air conditioning, and suburban housing are not sustainable.” -Maurice Strong, Secretary General of the UN’s Earth Summit, 1992.
We support the shift of our economic focus from translational corporate “fusionism” to regional subsistence. **Subsistence economy focuses on a “natural” way of living. This is not “back to stone age”. It rather means a spiral, wavelike progress out of the life-destroying habits of today’s so-called civilization and accepting and welcoming the complexity of life.**

We support the development of sustainable, decentralized, that is local, high-tech production, combined with local use of local resources. And the redesign of our monetary system according to a fourfold model: 1) economy of gifting (a basic matriarchal feature), 2) counter-trade (barter) economy, 3) complementary local monetary systems for regional trade, and 4) unified currency (for example called “terra”) for interregional and global trade. In our eyes compound interest has to be abolished. **Also the concept of “owning” land must be reconsidered.**

“The only hope for the world is to make sure there is not another United States. We can’t let other countries have the same number of cars, the amount of industrialization, we have in the US. We have to stop these Third World countries right where they are - Michael Oppenheimer, Environmental Defense Fund

“A massive campaign must be launched to de-develop the United States. De- development means bringing our economic system into line with the realities of ecology and the world resource ‘situation.’” - Paul Ehrlich, Professor of Population Studies

If we don’t overthrow capitalism, we don’t have a chance of saving the world ecologically. I think it is possible to have an ecologically sound society under socialism. I don’t think it is possible under capitalism” - Judi Bari, principal organizer of Earth First!
Social Equity —
Social equity is Language speak for collectivism and the repression of society / Redistribution and Eugenics

Author’s Note: This is marxism, cloaked in benign speech, as all economic funds Constitutionally come from the citizen through taxes. Our founders came from persecution of many kinds. The period under President Wilson saw Philanthropic Foundations entrance into the political process. Communist infiltration of many of the groups such as “Institute For pacific relations” (insured Chi-com China) and “The Rockefeller Foundation” (LCDC) circumvent the public, and in Rockefeller Foundation case admit to the overt manipulation of local, state and federal governance.

Steven Rockefeller was partner in the religious portion of the Earth Charter. Intent is to remove Religion as we know it, replaced by Paganism of the Environment over time.

“The goal now is a socialist, redistributionist society, which is nature’s proper steward and society’s only hope.”
- David Brower, founder of Friends of the Earth

“Regionalism must precede globalism. We foresee a seamless system of governance from local communities, individual states, regional unions and up through to the United Nations itself.”
- UN Commission on Global Governance

Childbearing should be a punishable crime against society, unless the parents hold a government license. All potential parents should be required to use contraceptive chemicals, the government issuing antidotes to citizens chosen for childbearing.”
- David Brower, first Executive Director of the Sierra Club
“The Global Biodiversity Assessment Report” directed by the United Nations Environment Programme (UNEP) in 1995, calls for urgent action to reverse the effects of unsustainable human activities on global biodiversity, including but not limited to the following:

- Pgs. 337 to 351 Ski Runs; Grazing of Livestock: cows, sheep, goats, horses; Disturbance of the Soil Surface; Large hoofed animals, compaction of soil, reducing filtration Fencing of Pastures or Paddocks

- Pgs. 728 to 783 Agriculture; Modern Farm Production Systems; Chemical Fertilizers; Herbicides; Building Materials; Fossil Fuels — Used for driving various kinds of machines; Synthetic drugs; Industrial Activities; Human-Made caves of brick and motor, concert and steel; Paved and Tarred roads, highways, rails; Railroads; Floor and Wall Tiles; Aquaculture; Technology Improvements; Farmlands, Rangelands; Pastures, Rangelands; Pastures; Fish Ponds; Plantations; Modern Hunting; Harvesting of Timber; Logging Activities; dams, Reservoirs, Straightening Rivers; Power Line Construction; Economic systems that fail to set a proper value on the environment?; Inappropriate Social Structures; Weaknesses in Legal and Institutional Systems; Modern Attitudes toward nature; Judaeo-Christian-Islamic religious; Private Property; Population Growth — Human Population Density; Consumerism; Fragmentation of Habitat — cemeteries, derelict lands, rubbish tips, etc.; Sewers, Drain Systems, Pipelines; Land use that serves human needs.

- Pgs. 969 to 990 Fisheries; Golf Courses; Scuba Diving; Fragmentation — Agricultural development, Forestry Urbanization (impervious surfaces)
We are being manipulated by a small group of people. Their goal is to manufacture and orchestrate events that will cause untold levels of pain and suffering for all of us. Finally we will eagerly and willingly trade our freedoms and liberty by agreeing to systemic changes designed to Enslave humanity.

- **Step One** - Define the Goal, and Set the Stage. **PRIVATE BEHIND THE SCENES/WIZARD OF OZ**

- **Step Two** - Manufacture Crisis, get Everyone’s Attention, Frame “the National / Global Conversation

- **Step Three** - Bring in the People Who Engineered the Crisis to “Solve it”. Incur Unsustainable Debt Obligations and Empty Treasuries of Every Country Trying to do it.

- **Step Four** - Collapse the Global Economy. Make it as Bad as Long as it has to be to Gain Compliance.

- **Step Five** - Welcome to the New World Order. **PRIVATE UNTIL REVOLUTION OCCURS**

The global economy will be run by a World Central Agency. (think of a dictatorship over everyone) and run on a regional basis by the existing central banks. the European Central Bank ...the African Central Bank on down through the other unions like a great big pyramid that will control all global finance and with it every man woman and child in it. Over the course of the last several decades, the same groups of “manipulators” have crashed currencies, toppled dictators and have been the cause of wholesale suffering and death as they slowly and methodically took over the currencies and established their central banks across the globe. Their grip on this country is so great that they regularly use our military might to fight their wars and invade the targeted countries for them. **Lately we have used the US Military to eliminate countries who controlled their own currencies and/or contained Islamic financial centers.** Very few of those countries and currencies still remain ...Syria and Iran happen to be two of the last major countries left with Iran being home for 3 of the top 5 Islamic financial centers in the middle east.
We are being manipulated by a small group of people. Their goal is to manufacture and orchestrate events that will cause untold levels of pain and suffering for all of us. Finally we will eagerly and willingly trade our freedoms and liberty by agreeing to systemic changes designed to Enslave humanity.

This Small group of men have done devastating damage to the United States, and world humanity by using the words Max Eastman wrote in their actions against American sovereign government.
“Alger Hiss Day” — Reminder of United Nations beginning in the year 1945

October 24 is United Nations Day, or as (Jewish Agnostic) Barbara Marx Hubbard calls it, “Global Oneness Day.” It has also been labeled “Alger Hiss Day,” in recognition of the Soviet spy and State Department official who played a major role in founding the world body. Don’t expect the major media to remind us of that fact.

One of the best sources of information on the role of Alger Hiss in the U.N. is the important new book, Alger Hiss: Why He Chose Treason, by Christina Shelton. The Shelton book notes, “Following Yalta, preparation for the establishment of the United Nations was Hiss’s primary mission.” Hiss was appointed acting secretary-general of the U.N. founding conference and was involved in staffing the U.N. by selecting people for employment in the world body. “About fifty showed up as permanent employees and a couple of hundred in part-time assignments,” Shelton says of Hiss’s efforts.

Ironically, while the U.S. State Department ignores Hiss’s role, the U.N. itself published a report about its founding that relied upon the observations of Hiss (without of course noting his role as a Soviet agent). A “FOIA” request for documents took several years to bear fruit. 215 pages of material studiously covered up his role, during the 60th anniversary of the World Body.

The documents include several drafts of the report, “The United States and the Founding of the United Nations, August 1941 – October 1945,” which examines minor controversies over mostly trivial matters. The material constitutes an indictment of the State Department and failure to acknowledge, let alone explain, how a communist assumed a major position of authority and power in the State Department and then used that influence to create a world organization that has been exploited for anti-American purposes ever since.

Although Hiss’s role in founding the U.N. is not mentioned by the major media when writing or airing contemporary stories about the world body, the facts do sometimes get noticed. When Hiss died in 1996, The New York Times noted, “By the time the charge [of being a Soviet spy] surfaced in the late 1940’s, Mr. Hiss had accompanied President Franklin D. Roosevelt to the Yalta Conference, played an important role in the founding of the United Nations and left the Government to become president of Carnegie Endowment for International Peace.”

Augury from the Past

Augury defined:
Forewarning, sign, portent, omen, promise (of things to come)

“A nation can survive its fools, and even the ambitious. **But it cannot survive treason from within.** An enemy at the gates is less formidable, for he is known and carries his banner openly. **But the traitor moves amongst those within the gate freely, his sly whispers rustling through all the alleys, heard in the very halls of government itself. For the traitor appears not a traitor; he speaks in accents familiar to his victims, and he wears their face and their arguments, he appeals to the baseness that lies deep in the hearts of all men. He rots the soul of a nation, he works secretly and unknown in the night to undermine the pillars of the city, he infects the body politic so that it can no longer resist. A murderer is less to fear. The traitor is the plague.” — Cicero - 106BC - 43BC

We must now face the harsh truth that **the objectives of communism are being steadily advanced** because many of us do not recognize the means used to advance them. The individual is handicapped by coming face to face with a conspiracy so monstrous he cannot believe it exists. The American mind simply has not come to a realization of the evil which has been introduced into our midst.” —J. Edgar Hoover August 1956, Elks Magazine
THE BATTLE TO PROTECT THE
CONSTITUTIONAL RIGHTS OF MEN, WOMEN
AND CHILDREN IN AMERICA IS NOT OVER.
THE FIGHT HAS BEEN ON FOR OVER
100 YEARS.

“AGENDA 21”, IN ALL OF IT’S MANY
MANIFESTATIONS IS SIMPLY THE LATEST
ATTEMPT TO MANEUVER AND SET THE
BLOCKS OF COLLECTIVISM, AND
TOTALITARIANISM. A LONG SOUGHT GOAL,
ACHIEVING DESTRUCTION OF THE UNITED
STATES AS A Viable LEADER ON THE
WORLD STAGE.
As to the “ICLEI” portion of this attack on America, the list of Cities and Counties in the United States that have disengaged from “ICLEI,” Driver of “Agenda 21” is growing by the day as citizens become aware and take positive steps to force removal.

In almost every case, citizens and informed groups defeated the “ICLEI” propaganda and deceit campaign when it was exposed. Find someone in a city near you and gather the information and tools you need. The list below is not nearly a complete list, there are hundreds. Most groups have web sites.

- Carroll County MD
- Amador County CA
- Edmond OK
- Las Cruces NM
- Montgomery County PA
- Spartanburg County SC
- Albemarle County, VA
- Carver, MA
- Georgetown, TX
- Pinellas County, FL (NOW CONFIRMED!)
- Garland, TX had renounced ICLEI earlier this year!

Thanks for the reminder!
- NOW Plantation, FL!
- Sarasota County, FL, too!
- James City County, VA!
- Oklahoma City, OK!
- Sequim, WA!
- Clallam County, WA! (There are now NO communities in the county who are members of ICLEI!)

UPDATE – 12/21/11!
- Reading MA (Yes Massachusetts!)
- Washougal, WA (December 2010 – ahead of its time actually! See this blog entry!)
- Somerset County, NJ
- Monmouth County, NJ

WHO IS NEXT?
- College Station TX! (March 2012!)
- Temecula CA!
- Vista CA!
- Irving TX!
- Waltham (MA)
- Chatham County (NC)
- Westchester County NY (Thanks to Talk of the Sound!)
- Rochester MN! As of Sept 10, 2012! RAH!
- St Lawrence County NY! (Thanks to Hal Shurtleff for report and a local activist in his work!)
- Spokane, WA! RAH!

I was told today (10/25/12) by Hal Shurtleff that Belfast, Maine left ICLEI, too!

The author: Through the written material on these pages, often by the actors themselves, and Congressional committee activities, it is apparent that at least three Communist cells were operating in the United States Government, from as early as 1917. Also apparent is the intellectual denial of the Department of State, (which continues to this day) to the voluminous records and facts brought forth in the attempts to remove the ongoing undermining of United States policy. The State Department (some members) are complicit to this day.

Much like a casino or gambling house, the invention of the United Nations and the continuing manipulations of the (House) have led to a bleeding of United States citizens treasure, and good will, in a cynical, intentional feeding of the Socialist/Communist movement around the world. The Agenda 21 program, UNESCO, and many many false programs threaten the very fiber of the individual, and our way of life. I reiterate again, we must win the battle and carry the fight, each in our own way, to the halls of our towns, counties, States and beyond. Get involved. The world actually does need us. We are from about the world, gathered to do good works, and have done so since the founding.
The state of Oregon has been in the throes of this United Nations assault for many years. His assault here in Oregon has been from the past, by prior Governors, U.S. Senators and City, County and others too numerous to count.

Continuing today through our League of Oregon Cities, activists in the planning departments etc. An example noted here is — Past Salem Mayor Mike Swaim, used “Brundtland Report” methodology, renamed it “Salem’s Future” and proceeded to use staff to implement the program. With the League of Oregon Cities materials, created by: The Hatfield School of Government as a cover, the process continues to this day, even though Mike Swaim was voted out of office. Throughout this material Oregon will serve as the (local example) to solidify the skeptic mind that it is in fact happening.
